### **HEART TO DOG**

Knowing WHERE your dog is on course is key to successful handling. If you've ever said, "I lost my dog," this session is for you! Learn methods to SEE your dog, to see where it's coming from on course, where it's going to, and where it is. Seeing your dog supports distance, discriminations and directional changes. Having my heart to my dog is the cornerstone of my handling success, and I'd be Happy to share it with you!

### **SEND AND GO**

Rushing around the course (or, moving along at a consistent "joggy" pace) and not seeing the success you'd like? Does VELCRO describe your dog and you? Let's change that! This session will present opportunities for you to handle in ways that help your dog to navigate with independence and accuracy. Content will be LOTS of reinforcement on short sequences and patterns. This session is a super follow-up to HEART TO DOG.

### **CHANNEL YOUR WAY TO WONDERFUL WEAVES!**

Independent, fast weaves happen when your dog's DRIVE and DESIRE are the focus. I teach independent weaves exclusively with channels, and I'd like to help your dog love weaves as much as mine do! If you are willing to let your dog think its way through to becoming a weaving wonder, sign up! This workshop is suitable for both young dogs and retrains.

### **LESS HANDS MORE FEET**

Dogs derives tremendous understanding of what path to take from the position of your feet, knees, legs and hips, as well as what speed you want the dog to run, and what direction it should take. Learn how you use those assets to give clear information to your dog using less hands and more feet.
